

EU Type Examination Certificate

This is to certify that:

ACTIVE GEAR SA
Route de Chantemerle 58d 1763
Granges Paccot
Switzerland

Holds Certificate Number:

CE 793719

In respect of:

Respiratory protective devices to EN 149:2001+A1:2009
Filtering half masks to protect against particles

on the basis that BSI carried out the relevant Type Examination procedures under the requirements with the Regulation (EU) 2016/425 of the European Parliament and Council relating to Personal Protective Equipment Regulation (PPE) Annex V (Module B) and meets the relevant health and safety requirements specified in Annex II

For and on behalf of BSI, a Notified
Body for the above Regulation
(Notified Body Number 2797):

Graeme Tunbridge, Senior Vice President Global Regulatory & Quality

First Issued: 2023-08-25

EU Type Examination Certificate

No. CE 793719

Product: Particulate Respirators

Product Type: Respiratory protective devices - Filtering half masks to protect against particles

EN 149 Classifications:

Models	Classification
Active AIR R21	FFP2 NR D
Active AIR R21C	FFP2 NR D
Active AIR R31	FFP3 NR D
Active AIR R22	FFP2 NR
Active AIR R32	FFP3 NR
Active AIR R23	FFP2 NR
Active AIR R33	FFP3 NR

Technical Specification: European Standard: EN 149:2001+A1:2009 – Respiratory protective devices – Filtering half masks to protect against particles.

Product Description: The particulate respirators are 'cup style' products designed to protect against solid particles.

All models are single shift devices, denoted by the classification symbol NR, and some meet the clogging option requirement of EN 149, denoted by the classification symbol D, see EN 149 Classification Table.

The Active AIR R21, Active AIR R21C, Active AIR R22 and Active AIR R23 make use of the same filter media, and the same design of nose clip and head straps.

The Active AIR R21C include a carbon layer in the filtering media. The models include R21, R21C, R22 have the same design of exhalation valve. R23 without the exhalation valve. The masks are held in place by a pair of elasticated head straps.

The Active AIR R31 model make use of the same filter media and the same design of nose clip and head straps. Models Active AIR R31, Active AIR R32 and Active AIR R33 has a PVC foam nose seal. The models include R31 and R32 have the same design of exhalation valve. R33 without the exhalation valve. The masks are held in place by a pair of elasticated head straps with 'pull-through' adjusters.

Product Specification (continue)

Product:	Particulate Respirators		
Product Type:	Respiratory protective devices - Filtering half masks to protect against particles		
	Models	Classification	
	Active AIR R26	FFP2 NR	
	Active AIR R36	FFP3 NR	
Technical Specification:	European Standard: EN 149:2001+A1:2009 Respiratory protective devices – Filtering half masks to protect against particles.		
Product Description:	The particulate respirators are 'flat fold style' products designed to protect against solid particles. All models are single shift devices, denoted by the classification symbol NR. All models incorporate a sponge nose seal. All models have the same design of exhalation valve. The masks are held in place by a pair of elasticated head straps.
